RETINAL IMAGING

We are pleased to provide our patients with an advanced digital retinal exam. It is great for documenting a baseline image for our charts, screen for eye diseases, and improve our ability to view your internal retinal health. A dilated exam may still be recommended by the doctor if a more peripheral view of the retina is indicated. Since insurance only covers retinal photos after eye disease is discovered, the Retinal Imaging Exam is an out-of-pocket expense. The fee is $45.00.

☐ I want to have my retinal health evaluated with Retinal Imaging.

☐ I do not wish to have Retinal Imaging Exam. I understand that I will still have a thorough eye exam with dilation.
